Ahmed Rehmat Khan

WEB & AI ENGINEER · AGENTIC AI DEVELOPER · PRODUCT LEADER

From Vision to Production | Web & AI Engineer | CTGO @ Luveia | Head of Product @ TradeSpera | Co-Creator @ PostSpera | Building AI-Powered SaaS | *Have a Vision? Let's Build It.*

Professional Summary

Technology entrepreneur, agentic AI developer, and product leader who turns ideas into practical, user-focused digital products, from first concept to production. Combines full-stack engineering, AI automation, and product strategy to design, build, and ship AI-powered SaaS platforms. Currently leads technology and growth at Luveia and product at TradeSpera while co-creating PostSpera. Trained in Modern Web and App Development (SMIT) and Agentic AI (PIAIC), with a founder's ownership of vision, execution, and outcomes.

Experience & Leadership

Luveia
OCT 2026 – PRESENT

Chief Technology & Growth Officer (CTGO)

- Own technology strategy, system architecture, and AI integration, driving product innovation and sustainable growth.
- Align engineering execution with business goals, bridging product, technology, and growth priorities.
- Introduce agentic workflows and automation to strengthen product capability and operational efficiency.

FOCUS *Technology Strategy · AI Integration · Growth · Product Innovation*

TradeSpera
OCT 2026 – PRESENT

Head of Product · Co-Creator

- Lead product vision, strategy, and development for an AI-powered trading platform serving wholesalers, retailers, and manufacturers.
- Translate market and user needs into prioritized roadmaps, features, and a scalable product foundation.

FOCUS *Product Vision · AI Trading Platform · Roadmapping · B2B*

PostSpera
OCT 2026 – PRESENT

Co-Creator · Software Engineer

- Build an AI-powered platform for reference-video discovery, analysis, and intelligent video-generation prompt engineering.
- Engineer full-stack features and AI workflows that turn reference footage into structured, production-ready prompts.

FOCUS *Video AI · Prompt Engineering · Full-Stack · Product Build*

AperaBoost
JUN 2026 – PRESENT

Co-Founder · Chief Executive Officer (Jun – Sep 2026)

- Led company vision, product strategy, and technology initiatives focused on AI solutions, automation, and digital products.
- Directed early-stage execution across product, engineering, and positioning, from concept to delivery.

FOCUS *Company Vision · Product Strategy · AI Solutions · Automation*

Markaaf Studio
MAY 2025 – PRESENT

Co-Founder · Project Manager (Jun – Aug 2025)

- Worked across product planning, feature prioritization, user experience, and execution, connecting business objectives with technical implementation.
- Coordinated delivery to keep scope, timelines, and technical work aligned.

FOCUS *Product Planning · Prioritization · UX · Delivery*

Core Strengths

Full-Stack Engineering
Next.js, React, TypeScript, Python.

Agentic AI Systems
Agents & autonomous workflows.

Product Leadership
Vision, roadmaps, and prioritization.

Founder Execution
Strategy-to-shipping ownership.

Have a vision? Let's build it.
